JLA & SONS CONSTRUCTION CO.

CAPABILITY STATEMENT

Underground utility subcontractor · Since 2005

JLA & Sons is a family-owned, union underground contractor. We carry the underground scope for prime contractors on IDOT, Illinois Tollway and City of Chicago work — storm sewer, drainage structures and water main — with our own crews, excavators and dump trucks. We self-perform, and we help primes meet DBE and MBE/WBE contract goals.
